

Beginner Basic (1-4 Class)	Outcomes	No of classes	Pricing
<b>Sequence, Algorithms, Programs Loop sequences, Debugging, Code Art</b>	<ol style="list-style-type: none"><li>1. Learn visual coding fundamentals and improve your logical thinking skills.</li><li>2. Create projects to solve problems and to make art.</li></ol>	<b>8</b>	<b>5600</b>
Beginner Standard (1-4 Class)	Outcomes	No of classes	Pricing
<b>Variables and Data Types, Complex Loops and Conditionals, Animations, Events, Basic App Development</b>	<ol style="list-style-type: none"><li>1. Learn advance visual coding concepts</li><li>2. Create Animations and learn how to make apps.</li></ol>	<b>48</b>	<b>32000</b>
Beginner Premium (1-4 Class)	Outcomes	No of classes	Pricing
<b>UI &amp; UX, Game Design, Advanced App Development, Professional Game Development</b>	<ol style="list-style-type: none"><li>1. Learn advance visual coding concepts</li><li>2. Create Animations and learn how to make apps.</li></ol>	<b>144</b>	<b>95000</b>

Intermediate Basic (5-8 Class)	Outcomes	No of classes	Pricing
<b>Algorithms, Conditionals, Variables and Data Types, Loops and Functions</b>	<ol style="list-style-type: none"><li>1. Learn core concepts of coding with visual block based code structures to strengthen computational thinking.</li><li>2. Become future ready to learn any modern computer language.</li></ol>	<b>8</b>	<b>5600</b>
Intermediate Standard (5-8 Class)	Outcomes	No of classes	Pricing
<b>UI &amp; UX , Design and Code, Functional Programming, Interactive App Structures, Game Development</b>	<ol style="list-style-type: none"><li>1. Learn to design and code your own app</li><li>2. Create single player and multiplayer games</li><li>3. Understand Storyboarding and create Animations to tell stories.</li></ol>	<b>48</b>	<b>32000</b>
Intermediate Premium (5-8 Class)	Outcomes	No of classes	Pricing
<b>Web Development, Game Development, Progressive Webapps, Space Simulations</b>	<ol style="list-style-type: none"><li>1. Create and host your portfolio on your own website.</li><li>2. Learn about space tech and create simulations.</li><li>3. Create your own Chat app like Whatsapp</li></ol>	<b>144</b>	<b>95000</b>

Advanced Basic (9-12 Class)	Outcomes	No of classes	Pricing
<p><b>Python: Variables and its Scope; Data Types and Operators; Collections: list, tuple, dictionary, sets; Conditionals: if, if else, elif ; Loops: while, for ; Functions: in- built, custom, lambda.</b></p>	<ol style="list-style-type: none"> <li>1. Learn Programming with Python - one of the most used languages in the coding world.</li> <li>2. Create projects to solve problems and to make art.</li> </ol>	<p><b>8</b></p>	<p><b>5600</b></p>
Advanced Standard (9-12 Class)	Outcomes	No of classes	Pricing
<p><b>Basic Website Development: HTML, CSS, SaSS, Javascript Modern Website Development: React, public API</b></p>	<ol style="list-style-type: none"> <li>1. Learn the basics of building a simple website like that of your school.</li> <li>2. Learn basics of building a professional website like Facebook or Instagram.</li> </ol>	<p><b>48</b></p>	<p><b>32000</b></p>
Advanced Premium (9-12 Class)	Outcomes	No of classes	Pricing
<p><b>Advanced Website Development: React, Redux, Firebase App Development: React Native, AI: ML models. Teachable Machine, DialogFlow</b></p>	<ol style="list-style-type: none"> <li>1. Learn advanced professional website development with server side.</li> <li>2. Build your own app and publish on AppStore or PlayStore</li> <li>3. Learn how to use AI and ML in your app or website and applications like chatbot.</li> </ol>	<p><b>144</b></p>	<p><b>95000</b></p>
